

Help manual for Sms Groups

Omnichannel provides short codes and simplified responses to make it easy for you to send messages. Using our Sms solution you can add, edit, update and delete as many Groups as you want and assign specific agents to the various groups. The solution allows you to send messages to single and multiple users.

The screenshot shows a web interface titled "SMS Groups". At the top right, there are two buttons: "Upload csv" and "+ Add Group", followed by a blue circular icon with a white exclamation mark. Below these is a table with four columns: "S.no", "Group ID", "Group Name", and "Action". The table contains two rows of data. The first row has "1" for S.no, "24" for Group ID, and "marketing" for Group Name. The second row has "2" for S.no, "25" for Group ID, and "Enquiry" for Group Name. In the "Action" column for each row, there are two icons: a blue square with a white pencil (edit) and a red square with a white trash can (delete).

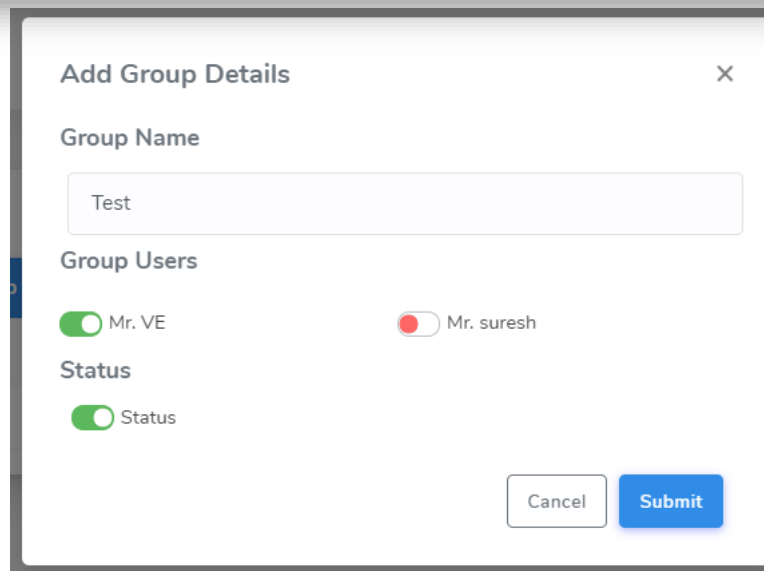

S.no	Group ID	Group Name	Action
1	24	marketing	 
2	25	Enquiry	 

How to add new Sms Group?

Go to **Manage** menu and click on the **Sms Groups** sub-menu.

- In the page that opens click on **+Add Group**.
- There will be a pop-out asking for **Add Group Details**.
- Enter the name of the Sms group that you want to create in **Group Name**.
- Assign the users for the Sms Group created.
- Click on the **Status** button to make the Group active.
- Then click **Submit**.
- The new Sms Group will be created.

The new Sms Group created now will be displayed on the Sms Group page.
